Counterfeiting

Counterfeiting is an enormous problem and we are doing all we can to help contain it. Many people do not understand the global ramifications of counterfeiting, or what they are really buying when purchasing counterfeit goods. The impact on the economy is tremendous.

The manufactures of counterfeit goods do not pay their employees, fair wages or benefits, have poor working conditions and some even use child labour.

Counterfeiters do not pay taxes meaning less money for schools and hospitals etc. They are hardened criminals, exploiting consumers, businesses both large and small and children working in sweat shops in third world countries.

When you purchase a fake product, you become part of the cycle of counterfeiting and your money directly supports these things.

Clements & Church is extremely dedicated to helping fight the increasing volumes of counterfeit goods. Counterfeiters will have legal action taken against them.

This is a very serious matter and if you have any information on a counterfeit seller of Clements & Church, please contact one of our stores (see stores page).
